Anna is using four models to compare fractions. She shades each rectangle to represent a fraction of a whole.

Select **all** the statements that can be supported using Anna's fraction models.

☐  $\frac{2}{6} = \frac{4}{12}$

☐  $\frac{2}{12} = \frac{4}{12}$

☐  $\frac{2}{6} > \frac{1}{6}$

☐  $\frac{2}{12} > \frac{2}{6}$
